

How to reach us

Arriving via Autobahn A4:
Leave Autobahn A4 at interchange "Kreuz Chemnitz" and get onto Autobahn A72 heading towards Plauen/Hof. How to continue from here is described in the paragraph below.

Arriving via Autobahn A72:
Get off the Autobahn A72 using exit "Chemnitz Süd", heading downtown ("Zentrum"). Continue on Neefestraße to the first major intersection. Take a right turn onto Südring and follow this road. At the 4th intersection controlled by traffic lights, after you just crossed a bridge, take a right turn and cross Annaberger Straße (B95). Turn left at the very first drive.

You will find our office premises on the 5th floor of the TCC ("Technologie Centrum Chemnitz").

global consulting - individual solutions

Our Company

Our Company

Based in Chemnitz, c.a.p.e. IT[®] GmbH was founded as a spin-off of an internationally operating IT-systems vendor in 2006. Our **certified software consultants and developers** with **extensive** and **many years of project experience** provide services and products of quality standards that hitherto used to be only available for large enterprises. We understand to combine the advantages of enterprise IT with the needs of small and medium-sized businesses.

As a competent partner for **service management** and **workflow systems** in the domains of customer service, IT service, citizen service as well as **IT infrastructure**, IT security and IT operation, c.a.p.e. IT[®] GmbH provides one-stop solutions for its customers.

Our products and services are used by medium-sized businesses and major customers. Contracting authorities take also advantage of our integrated solutions.

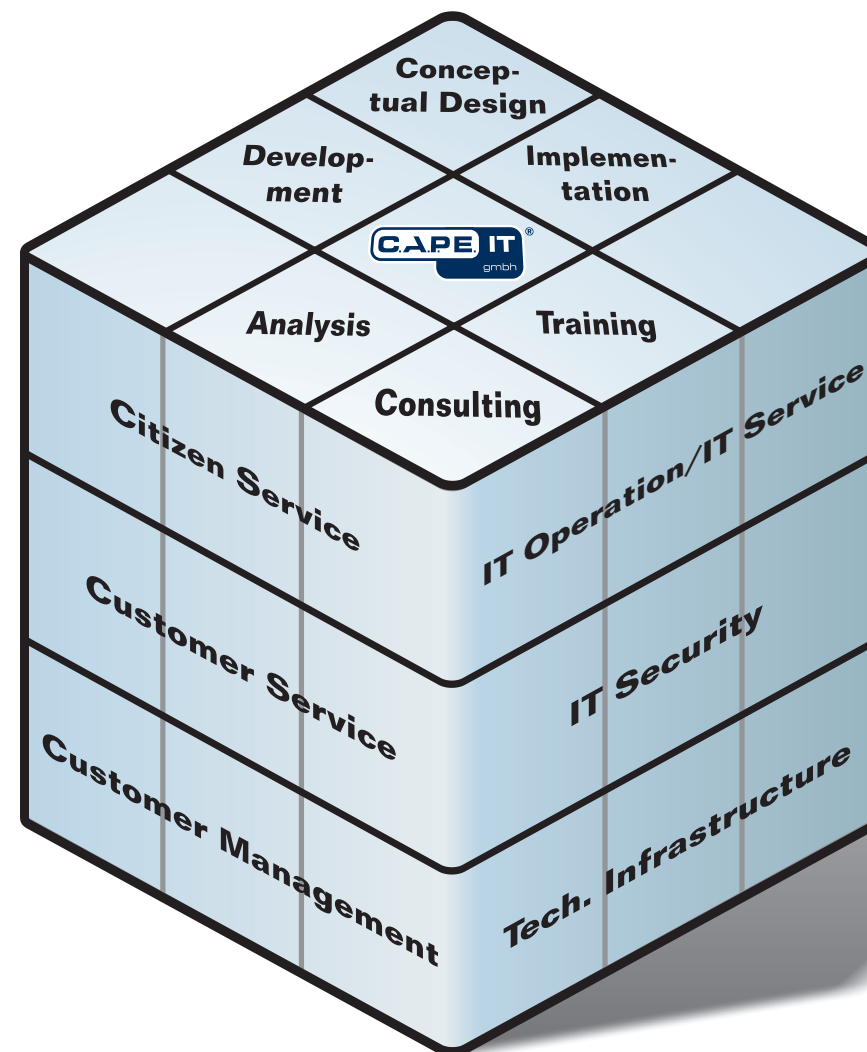

Your Benefit

Tap your full **cost saving** potential and get ahead with your business through:

- fast and secure business processes
- optimization of work processes through systematic IT support
- maximization of service quality
- taking advantage of synergies between service and quality management

Our Commitment

We actively get involved with the Linux Society for the commercial use of open Source Software. The LIVE Linux Society's central objective is to promote the professional use of Linux and other open source software. The society acts on behalf of businesses that are committing themselves to this purpose and represents the commercial aspects of Germany's developer community of open source software.

Our Partners

Univention GmbH

univention
linux for your business

As developer of the Linux-Enterprise-Distribution "Univention Corporate Server (UCS)", Univention GmbH is one of the top producers of software products that allow for implementation and expansion of Linux-based IT infrastructures. We are Univention's partner for the distribution and support of the Linux infrastructure solution UCS and software applications based on it, such as Univention Groupware Server (UGS) and Univention Corporate Desktop (UCD).

Zarafa GmbH

Zarafa
Outlook sharing & Webaccess

Zarafa offers a Linux-based alternative to Microsoft Exchange, which allows for shared access to calendars, e-mails and contacts within a network. We are partner for the distribution and support of Zarafa's groupware solution.

Tarent

→ tarent

Tarent develops intelligent IT solutions for complex applications and processes. Our solutions work, grow and thrive. They are like our customers and us: ready for the future. We are partner for the support and implementation of the open source software Nuyo.
